Nomination # <u>96 048</u>	<u>[Signature]</u> <u>2/15/96</u> Regional Supervisor Date
Revision Year: <u>96</u>	<u>Dean W. Hughes</u> <u>2/13/96</u> <u>Z. Inoue</u> <u>3/29/96</u> Drafted Date
Revision to: Atlas _____ Catalog _____ Both <u>X</u>	
Revision Code: <u>A-2</u>	

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous
Coho Salmon	Aug. Sept 1992 and 1993	X		X	
Pink Salmon	August 1992 and 93	X			

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as any other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: During site inspections on new Alignment of Exit Glacier Road, adult Pinks and Coho salmon have been observed in this stream.

This stream is approximately 12 feet wide and water is generally clear. Substrate is very fine due to low water velocities. Salmon spawn in riffles where gravel is washed of fines. Pinks and Coho located upstream to Bridge on driveway on map. Photo Reference: P 1022, P 1058, S 294, S 302

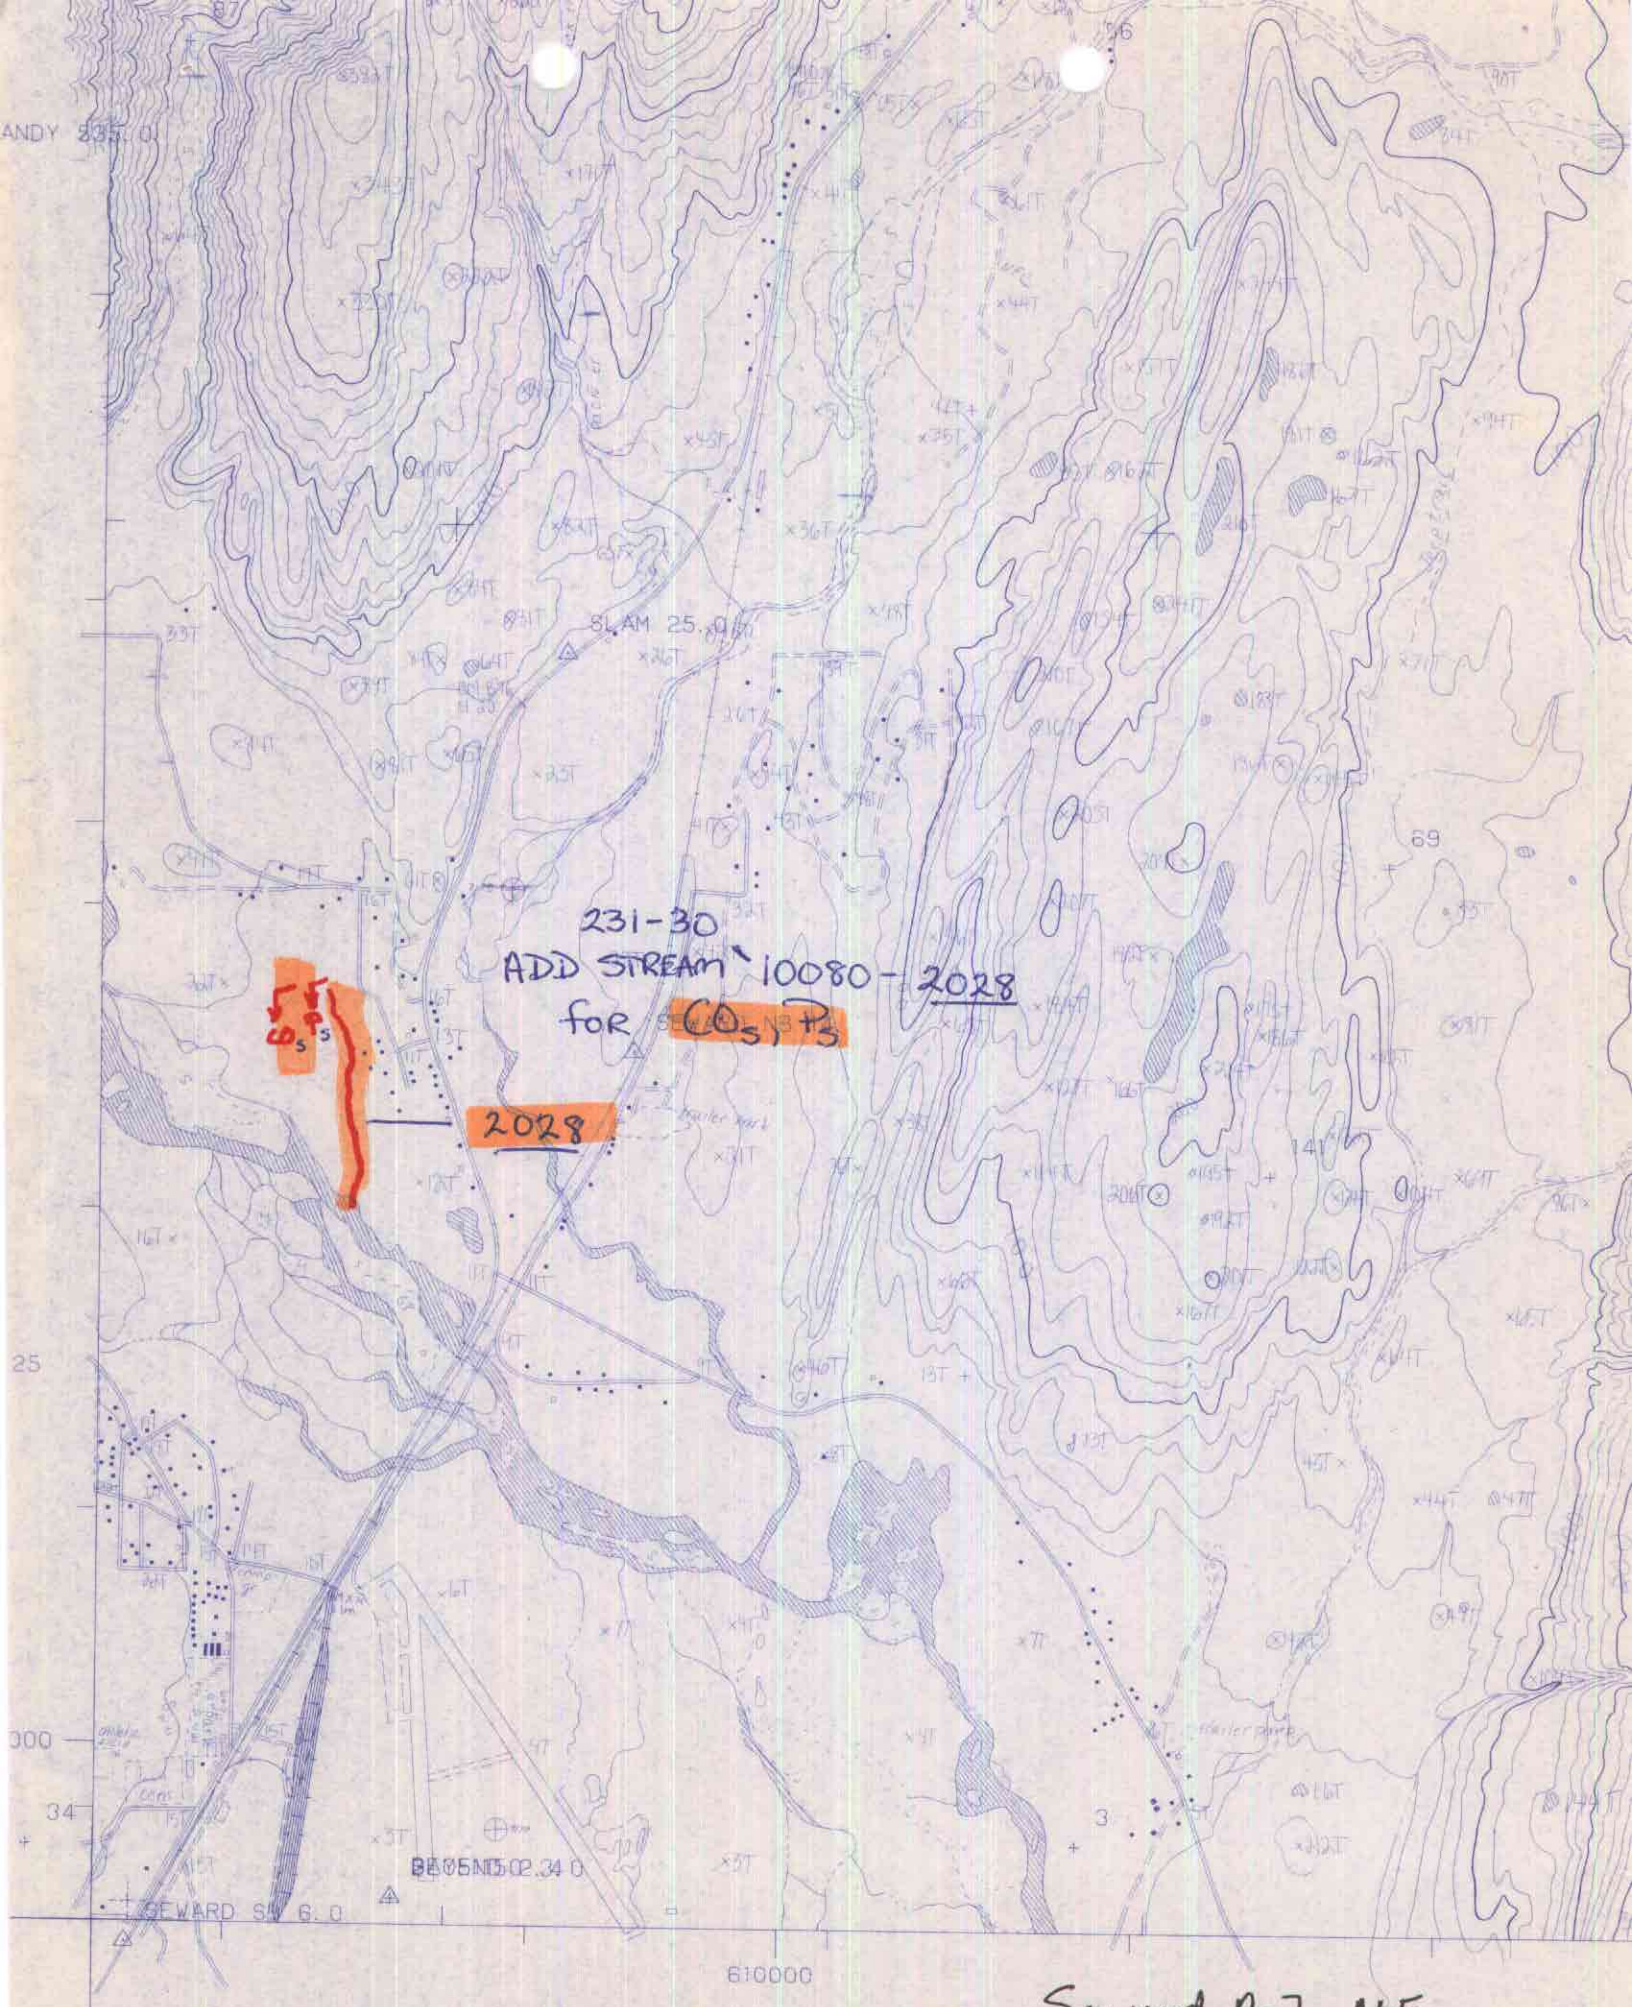

Name of Observer (please print) Stewart Seaberg Habitat Biologist, ADFG
Date: 11/2/94 Signature: [Signature]
